

Single development seed0; no Primary or architecture-advantage claim. Old long TEST is not pure forgetting.
All four learning stages frozen before TEST. Common CPU admission 10.647296s is additional; NN/Adam 53,588/107,284B per arm.
Replay 55,296B plus metadata. Full training FLOPs, driver/context memory and provider-effective compute are unknown.
